**Committee Chairperson's!!!! Need your input for the Newsletter!!!  
(Editor)**

## **Message From the President**

Greetings OVH;

Hoping this merry month finds everybody in good humor. A ham's healthy diet is erecting a maypole. If anyone has either their own or access to equipment (ie. overhead or 35mm slide projectors, etc.) for required club program use, contact Erv, KT4DS. This would be appreciated and on a one-night loan basis.

A lot of dedication along with just plain fun are put into our club nets: Harry's (W4PVA) on Thurs. night, plus Lisa's (KF4FJD) on Sun. night-- each at 8pm. We need to support those that "give something back."

Come out for the May 18th meeting. This will be a special awards night honoring a scholarship recipient from a local high school. Also Jack, N4YIC, will address Hamfest. It is sure to be worth your while to attend.

The SB480\* passed because we participate in both public service and community events, so SIGN UP! for as follows:

Upcoming spring/summer activities include: June containing Hamfest (7th with set up the 6th), VE exams (the 13th), and Field Day running the 27th and 28th. A weather training class (from NWS) will be offered which gives hams an opportunity to participate in SKYWARN. We should take full advantage of these educational assets offered to us.

73 and here to serve YOU, See you May 18 AE4UM, Cathy

\*more on this inside.

The OVH Times is the official publication of the "Ole Virginia Hams" ARC is a non-profit organization dedicated to the promotion and enhancement of Amateur Radio. The OVH ARC meets at 8:00 PM every third Monday of the month, at the Northern Virginia Electric Coop, located at 10323 Lomond Dr., Manassas, VA. Prospective members are invited.

Local information can always be obtained, at any time, through the usage of the OVH repeaters (146.97- & 224.660- Mhz). All are welcome.

Permission is hereby granted for the reprinting of articles and quotations in this letter, provided full credit is given to the OVH ARC, and the author of the article. Contribution of printed articles by both members and non-members is encouraged. The deadline for submissions is the 5th of each month. Submissions should be forwarded to OVH TIMES EDITOR: Steve Meade KB4OF, PO Box 1418, Manassas, VA 20108-1418. Or to sameade@erols.com

Letters to the Editor and Classified Ads are accepted and welcome. Approx. Circulation - 170

## MINUTES OF OVH MEETING

APRIL 20, 1998

**Cathy/AE4UM**, opened the meeting at 8:02 PM with the Pledge of Allegiance, oral roll call and signing the attendance sheet. There were 19 members and 4 guests present. She welcomed everyone and introduced the evening's guest speaker, **John Kanode/N4MM**, the ARRL Director of the Roanoke Division.

John spoke about changes in the ARRL and upcoming events. The new leadership is evincing greater interest in rules enforcement and are going to start building new case files to that end. On licensing changes: the feedback from the last member survey was tremendously varied and didn't provide much direction; there is the possibility that the Novice class license may be eliminated because so few people go for only that class. **FCC**: it plans to eliminate many forms, ending up with just **Forms 601** and **605**; the cost of a vanity callsign application will drop to \$12.90. He thanked everyone who helped pass **SB480**. The many e-mails, calls, and letters overcame intense lobbying by the counties and municipalities. He then took questions from the floor.

Following John's talk, the previous minutes and Treasurer's report were approved unanimously. Cathy announced that OVH might sometimes need to borrow a 35mm projector or an overhead for programs. Also, the club needs a FAR Representative and an Emergency Coordinator. She thanked **Butch/W4HJL**, for the use of an HT to support packet.

### COMMITTEE REPORTS

**Technical** - The 440 repeater is back up temporarily but is not in final shape. Also, **George Tarnovsky/KE2AM**, has volunteered to join the Technical Committee.

**Hamfest** - **Jack/N4YIC**, has lined up a new vendor, just signed the contract for police coverage, and has developed a new table chart.

**Scholarship** - **Jack/N4YIC**, sent out the information packets to the schools and confirmed that with the appropriate officials. The scholarship presentation will be at the May meeting, Hopefully with press coverage.

**Field Day** - **Maury/W4HYB**, is looking for people to sign up for various functions for Field Day on June 27 and 28.

**ARES** - **Erv/KT4DS**, said the Mass Casualty Drill has become a statewide showcase for hams in emergency services. He mentioned that he hopes to activate an HF net using traffic control people to check in around the entire state.

**Harry/W4PVA** spoke briefly about S480. RACES officers attribute its success, in part, to the good will hams have created in the past with emergency and community activity support and how that effort needs to continue.

### OLD BUSINESS

A question was raised about where the OVH will meet when we lose use of the **NOVEC** facility after August. Cathy replied that the alternatives are being investigated but no decision has been reached yet.

50-50 was won by **Larry/KA4CTX**.

The meeting adjourned at 9:17 PM.

**Jeff Poulin/KF4JSV**

Recording Secretary

**ARES/RACES**  
provided by Erv/KT4DS

**From: Frank Mackey - VA SEC/State RACES Officer**  
**To: All Amateurs**  
**Subject: SB-480 Signed by the Governor (in Part)**

..... We should all give a big THANK YOU to Bob Ham, KK4IY, who spearheaded this enormous battle to give amateur radio reasonable footing within the local communities.

I think that this should also be a reminder that one of the primary justifications for the amateur radio service is to provide emergency and public service communications. This Bill passed the Virginia legislature and was signed by the Governor because we provide emergency communications within the Commonwealth. Only a small percentage of active hams are involved in this type of communications. But without those hams justifying our cause there would be no rag chewing, Dxing, contesting or the many other facets of our hobby.

Get out there and volunteer to assist with public service, become a Skywarn observer, do something to help justify the existence of amateur radio.

73 and Thank You  
Frank Mackey - K4EC

**SUNSHINE CORNER**

Happy Birthday to our fellow hams -- Blaine/KB4RKL, Bill/WA4FIC, Craig/N4WUV, William/K4WRG, Bill/WB4KFU, Fred/KD4IIX, Angela/KC4OYD, Bob/N4RL, Jack/N4YIC, Ivan/KT4DZ, Craig/WA3UFY, Tim/KB4NR, and Mark/KF4PIW.

Please continue to keep Tim Wayne/KB4NR, in your thoughts and prayers, as his health is not well.

73 de Jan/KE4TMW

**NEW VIRUS?**

Heads-up! In response to one of yesterday's articles which read "a computer virus cannot exist in an e-mail text message, nor can one be spread simply by reading an e-mail message", read Chip Seymour over at The MITRE Corporation (cseymour@mitre.org) provides an update.

"The rules appear to be changing, thanks mostly to new, more user-friendly software. Here is an excerpt from the RISKS Digest, Vol 19, No 67, written by A. Padgett Peterson:

Suffice it to say that for years we have been able to tell users that "you cannot get a virus just by opening E-Mail". Well, that bug is being fixed. It seems that with the default installation of the just-released mail-reader product coupled with the 98 version of the operating system (at least the current beta which contains a necessary ..DLL), all of the factors needed to accomplish the above are present. In fact, in recent days I have been able to drop an executable file both on c:\ and into the startup directory just by opening the mail reader ("preview", which includes script execution for some reason, is a default feature). I found it remarkably simple to drop an executable file on the hard disk that executed on the next boot. Times are about to become "interesting". Just when you think you're getting to know the rules."

## **ARLB030: LMCC petition opposed**

Downloaded from ARRL Web Site

QST de W1AW  
ARRL Bulletin 30 ARLB030  
From ARRL Headquarters  
Newington CT May 7, 1998  
To all radio amateurs

SB QST ARL ARLB030  
ARLB030 LMCC petition opposed

The ARRL is organizing opposition to a new threat to the 70-cm Amateur Radio band. The Land Mobile Communications Council (LMCC) has asked the FCC to immediately reallocate 420 to 430 MHz and 440 to 450 MHz from the federal government to the Private Mobile Radio Service (PMRS) on a primary basis. Amateur Radio now enjoys the use of 420 to 450 MHz on a secondary basis, and the 430 to 440 MHz segment is an international allocation. The 70-cm band is the second most popular of the hobby's VHF/UHF allocations, with substantial FM repeater and other operation in the 440 to 450 MHz segment and a variety of uses in the 420 to 430 MHz segment.

The LMCC request, based on "additional spectrum needs of the PMRS community," acknowledges Amateur Radio's use of 420 to 430 and 440 to 450 MHz, and suggests that ham radio applications can remain secondary to PMRS in those segments, but offers no explanation of how sharing could be accomplished. The LMCC says it believes the 430 to 440 MHz subband "is more important to the amateurs for use in emerging technologies such as links with spacecraft and amateur television applications."

The petition also suggests that equipment availability and technology resulting from an expanded PMRS presence on 70 cm would benefit hams "pursuing such applications as compressed video television in the 430-440 MHz band." The LMCC concedes, however, that its "most urgent need" for PMRS is voice and low-speed data applications, not advanced technologies which might come later on.

The petition also notes that PMRS already uses 420 to 430 MHz in three Canadian border cities (Buffalo, Cleveland and Detroit) and a "reduction in military use of this band is foreseen."

The LMCC also seeks allocations at 1390 to 1400 MHz, 1427-1432 MHz, and 1670 to 1675 MHz as well as 85 MHz at 960 to 1215 MHz by 2010.

Comments are due on the LMCC's Petition for Rulemaking, RM-9267, by June 1. Reply comments are due by June 15.

## AMATEUR RADIO ANTENNAS IN VIRGINIA

Virginia's Governor Gilmore signed S480 on April 16, 1998 and the bill goes into effect on July 1, 1998. This bill is good news for all Amateur Radio operators in Virginia. A copy of is attached for inclusion in our OVH Newsletter.

Cheers & 73

Jack/N4YIC.

### **VIRGINIA ACTS OF ASSEMBLY**

An Act to amend the Code of Virginia by adding a section numbered 15.2-2293.1, relating to placement of amateur radio antennas.

[S 480]

**Approved**

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 15.2-2293.1 as follows:

Placement of amateur radio antennas.

Any ordinance involving the placement, screening or height of antennas shall reasonably accommodate amateur radio antennas and shall impose the minimum regulation necessary to accomplish the locality's legitimate purpose. In localities having a population density of 120 persons or less per square mile according to the 1990 United States census, no local ordinance shall (ia) restrict amateur radio antenna height to less than 200 feet above ground level as permitted by the Federal Communication Commission or (iia) restrict the number of support structures. In localities having a population density of more than 120 persons per square mile according to the 1990 United States census, no local ordinance shall (ib) restrict amateur radio antenna height to less than 75 feet above ground level or (iib) restrict the number of support structures. Reasonable and customary engineering practices shall be followed in the erection of amateur radio antennas. This section shall not preclude any locality, by ordinance, from regulating amateur radio antennas with regard to reasonable requirements relating to the use of screening, setback, placement, and health and safety requirements.
